

Mission: Multiplication and Division	
Recall and use multiplication and division facts for the 3 times table	
Recall and use multiplication and division facts for the 4 times table	
Recall and use multiplication and division facts for the 8 times table	

Mission: Division	
Halve three digit numbers	
Divide whole numbers by a multiple of 10 using place value	
Divide whole numbers by 10 using place value and the language of "10 times smaller."	
Use partitioning and known facts to divide 2 digit by 1 digit numbers mentally.	

Mission: Place Value	
Partition 3 digit numbers in different ways eg $343 = 200 + 143$	
Use place value to find 10 and 100 more or less than any 3 digit number	
Compare and order numbers up to 1000 and position them on a number line	

Mission: Multiplication	
Use partitioning and known facts to multiply 2 digit by 1 digit numbers mentally	
Multiply whole numbers by 10 using place value and the language of "10 times bigger."	
Multiply whole numbers by a multiple of 10 using place value	
Double three digit numbers	

Mission: Addition	
Choose to add 3 digit numbers using formal written when appropriate	Add 3 digit numbers choosing appropriate mental strategies
Partition the 2 nd number to add 10s then 1s including bridging	Use rounding to add near multiples of 10.
Add numbers by partitioning and recombining	

Mission: Subtraction	
Choose to subtract 3 digit numbers using formal written methods when appropriate	Subtract 3 digit numbers choosing appropriate mental strategies
Partition the 2 nd number to subtract 10s then 1s	Use rounding to subtract near multiples of 10
Subtract numbers by finding the difference between them
